My love of Nature started at a very young age.

I was a member of the Victoria Junior Naturalists under the leadership of Freeman (Skipper) King – attending nature hikes with that group every Saturday throughout my teenage years.

I have a Bachelor of Science (Biology/Botany) and a Masters of Education (Adult Ed), both from the University of Victoria. I was a Lab Instructor in Biology/Botany at UVic for 31 years and am a keen advocate for experiential learning.

Now, I am a grandmother of three and am anxious to do all I can to make the world a healthy place for their, and future, generations.
